

I'm very concerned about the possible LPFM expansion that could possibly take priority over our KLOVE signals. Our family and friends listen to KLOVE everyday. KLOVE has been very important to our family. It is a station that we feel safe having our children listen to and that they love to listen to!! (ages 16, 15, 11). When we moved from Medford Oregon to Sahuarita Arizona -- KLOVE helped us settle in -- everything was different, but KLOVE was the same -- it felt like we took some family with us. We also search for KLOVE as we travel in the car. My family who lives in Minnesota listen to KLOVE also -- and it is so nice to know that my mom and I are listening to the same thing at the same time. Please do not change the FCC law. --- NO to Localism!! Thank you!
